WORK EXPERIENCE

Net Health Shops LLC

Aug. 2022 – Present

Software Developer II

- Refactored microservices using Azure serverless apps, improving scalability and maintainability.
- Created the first successful 3PL (third-party logistics) integration, significantly reducing storage costs and keeping the company financially stable during critical periods.
- Researched and developed the initial Amazon integration for shipping templates, ensuring compliance with Amazon Prime requirements, critical for maintaining Prime status.
- Implemented CI/CD pipelines with GitHub Actions, reducing deployment time by 30%.
- Enhanced Shopify using Liquid, CSS, HTML and JavaScript for responsive user experience.
- Developed Salesforce data archiving solutions, reducing storage costs and improving database performance.
- Spearheaded integration modernization for 56 marketplace connections, optimizing data synchronization and reducing latency.

IDEXX Laboratories

Aug. 2021 – Aug. 2022

Software Support Specialist

- Diagnosed and resolved SQL database issues for Cornerstone Software, ensuring seamless operations for end-users.
- Installed and configured software on user networks, improving system reliability.
- Delivered tailored solutions to meet customer needs, achieving high satisfaction rates.

Morrie's Automotive Group

Jan. 2019 - Aug. 2021

Lead Service Advisor

- Managed daily operations, including customer relationship management, billing, and scheduling.
- Achieved Mazda Lead Service Advisor Certification, improving customer satisfaction and service efficiency.

Morrie's Automotive Group

Apr. 2015 – Dec. 2018

Sales Associate

- Secured Mazda Elite Master Certification, driving sales and customer retention.
- Managed vehicle loans and warranties, increasing profitability and customer satisfaction.

Jimmy John's

Sep. 2010 - Apr. 2015

Manager

- Optimized sales and inventory projections, increasing profitability and workforce efficiency.

- Trained and coached employees, improving performance and operational standards.
